WATER!

## Holding Tank Treatment

### MARINE Fizzytabs™ help reduce odors and liquefy solids for easy pumping

- Enzyme producing bacteria
- Safe for all plumbing
- Digests grease & other wastes
- Safe for all marine applications
- Reduces odors
- Environmentally friendly

**MARINE Fizzytabs™** are a powerful holding tank and wash tank treatment in an easy-to-use effervescent tablet. Simply remove a tablet from the foil, drop it in the head and flush. The tablet will dissolve once mixed with water in the tank.

Each **MARINE Fizzytabs™** releases billions of beneficial bacteria into your system. Bacteria go straight to work digesting the organic material that cause the foul odors. The bacteria also help liquefy the organic material, removing the solid crust that is harmful to the plumbing.

**Holding Tank Maintenance:** After dumping the holding tank, or after the first usage of water, drop 1 **MARINE Fizzytabs™** directly into the head and flush. The tablet will dissolve in the tank after contact with water.

**For larger vessels,** use as needed (2-7 per week).

**To reduce grease,** apply 1/2 of the weekly dosage directly to the galley sink, add water and drain after the tablet dissolves.

**CAUTION:** Keep out of reach of children. Eye Irritant. In case of eye contact, flush eyes with water for 15 minutes.
