

RV Fizzytabs™

Holding Tank Treatment

RV Fizzytabs™ help reduce odors and liquefy solids for easy pumping

- Enzyme producing bacteria
- Safe for all plumbing
- Digests grease & other wastes
- Keeps drain lines free flowing
- Reduces odors
- Environmentally friendly

RV Fizzytabs™ are a powerful holding tank and wash tank treatment in an easy-to-use effervescent tablet. Simply remove a tablet from the foil, drop it into a toilet bowl, add water if necessary, allow time to dissolve and flush.

Each **RV Fizzytab™** releases billions of beneficial bacteria into your system. Bacteria go straight to work digesting the organic material that cause the foul odors. The bacteria also help liquefy the organic material, removing the solid crust that is harmful to the plumbing.

Holding Tank Maintenance: After dumping the holding tank or waste tank, drop 1 **RV Fizzytab™** directly into the toilet bowl, allow 3-4 minutes for the tab to dissolve, then flush. Use **RV Fizzytabs™** on both black and grey water systems. Normal odors should be reduced by using 1 **RV Fizzytab** per cleaning. For bad odors use several times per week. For extreme odors, use daily.

CAUTION: Keep out of reach of children. Eye Irritant. In case of eye contact, flush eyes with water for 15 minutes.
