SUCTIONLINE Fizzytabs™

Biological Suctionline Cleaner

Reduces odor and organic buildup in the suctionline.

- **Reduce Odor**
- **Reduce Buildup**
- **Reduce Maintenance**

Directions: Make a solution by dropping in 1 Suctionline Fizzytabs™ into a container of water. Allow the tablet to dissolve. Each Suctionline Fizzytabs™ will treat 4-5 chairs so apply equal amounts of the solution into each location. Apply part of the solution directly into the suctionline and pour part of the solution into the spit sink.

For best results, apply at the end of each day, after cleaning, and DO NOT apply with antimicrobials, disinfectants, or hot water (>170°F).
